## Introductory Remarks

**Amendment Under 37 CFR § 1.116**

Claims 1-10 remain in the patent application.

Responsive to the Final Rejection of December 10, 2003 kindly amend the above entitled patent application under the provisions of 37 CFR § 1.116 by rewriting claims 1 and 6-10 to overcome the Examiner's objection and to more clearly distinguish the claims over U.S. Patent 2,854,857 to Gleasman.

The undersigned attorney thanks the Examiner for the courtesy of the telephone interview January 30, 2004. In that interview, the Examiner indicated that the currently amended claim 1 set forth on page 2 of this Amendment was allowable.
